

In these changing & trying times...

We're still here!

Social distancing has become a buzzword in our current climate. However, we prefer to work toward *social connections* while also remaining responsible and safe.

Obviously, we can no longer hold the in-person OTOK 2020 Spring Summit as initially designed. But, we have a plan! We intend to offer a series of manageable online, interactive programming.

Here is what's to come

We are in the process of moving the Summit to an online platform. While we are still working out the details, here are some things you can count on:

- Phase 1: We will have a 2-hour webinar-type format ready on **April 17, 2020 from 8:00-10:15am MT or 9:00-11:15am CT**. Please plan to attend online!
- Phase 2 and 3 details will be forthcoming as we iron out details and availability.
- We hope to have this online program completed by the first week of May.

We remain hopeful that in the weeks or months to come, we can hold an in-person gathering.

We will provide regular updates; also feel free to check the Our Town Our Kids website for details. (Note: there is a OTOK Summit button at the top of the homepage).
